Classroom Technology

QUICK GUIDE

Your guide to the equipment in this classroom

1. Start
   Locate the Touch Panel on the lectern
   (If the screen is black, firmly touch the screen to activate)

Select a Source
   Select the source that you would like to display on the screen.
   The following sources are available in this room:

- Computer
- Laptop Collaboration
- Video Collaboration
- Document Camera
- Web Conferencing
- Wireless Presentation

LCD Screen On:
   The LCD screen will power on after selecting a source.
2 Select a Source:

Computer:

1. Select Computer on the Touch Panel
2. Login to the classroom computer using your GW NetID* and password
3. To use a flash drive, insert it into the USB port located on the monitor
4. To play a DVD, insert it into the optical drive on the PC and use the PC to control the player

Laptop Collaboration:

1. Make sure the laptop is turned off
2. Connect the Video cable located on the lectern or any of the tables to the Video port on the laptop
3. Select Laptop Collaboration on the Touch Panel
4. To display from a laptop, select a location to display from the classroom diagram or button presets
5. Power on the laptop
6. If the laptop image does not display on the screen, adjust display settings on your laptop

*Your GW NetID is the portion of your GW email address that precedes the "@" symbol.

If you need assistance, please contact the AT Solutions Center at (202) 994-7900
2 Select a Source:

**Video Collaboration:**

Use **Video Collaboration** to facilitate sharing of group work via whiteboards and cameras locally during a class.

1. Select **Video Collaboration** on the Touch Panel
2. To display video from a location in the classroom, select the location from the classroom diagram or from the **Camera Presets**
   *To switch to a different view, select the location from the classroom diagram or camera presets*
3. Adjust the framing and zoom of the camera, if needed, by using the controls on the right side of the touch panel

**Document Camera:**

**Document Camera (Ceiling):**

1. Locate the document camera in the classroom ceiling
2. Lift the flip-up shelf on the side of the lectern until you hear a click
3. Select **Document Camera** on the Touch Panel
4. Place the material you would like to project onto the shelf
5. Adjust the zoom and focus level using the Touch Panel controls
6. When you are finished using the document camera, lower the flip-up shelf by squeezing the levers on the sides

**Document Camera (Drawer or Cart):**

1. Locate the document camera in the classroom
2. Plug one end of the Video cable into the “DOC CAM” port on the lectern faceplate and the other end into the “VGA Out” on the document camera
3. Plug power cable into the power outlet
4. Power on the Document Camera
5. Select **Document Camera** on the Touch Panel
2 Select a Source:

Web Conferencing:

Use a Web Conferencing application to conduct online lectures, collaborate with remote users, and share and receive presentation content.

WATCH VIDEO INSTRUCTIONS

1. Select **Web Conferencing** on the Touch Panel
2. Log in to the lectern computer and open a web conferencing application. Cisco WebEx, Blackboard Collaborate, Adobe Connect, and Skype are installed on the computer.
   
   You and your remote audience must have an account with any of these applications.
3. Initiate a video call from the web conferencing application
4. **Video Collaboration** is the default source displayed on the screen. **Lectern** is the default camera view.
   
   Your remote audience will see a view of you at the lectern.
   
   Adjust the framing and zoom of the camera, if needed, by using the controls on the right side of the touch panel.
   
   You can switch to audience view by using the camera controls on the touch panel.

Web Conferencing Continued:

5. To share a presentation on the lectern computer with your remote audience, screen sharing on the application must be initiated.
   
   - If the **Computer source** is not displaying on the screen, select a camera view from the touch panel.
6. To display content from another device, such as a document camera or your laptop, select the source to share on the touch panel.
   
   - Audio will not play from your laptop.
   - The **Document Camera** and **Laptop** sources will replace the camera source you were displaying.
   - If screen sharing was initiated, Document Camera and Laptop will be displayed as the secondary source to the remote audience. Stop screen sharing in order to send the source as the main view.
2 Select a Source:

Wireless Presentation:

The Wireless Presentation feature allows instructors to present content from Apple devices onto the classroom display.*

WATCH VIDEO INSTRUCTIONS

1. Select Wireless Presentation on the Touch Panel
2. On your iOS device, swipe up from the bottom of your screen to access Control Center
   a. Ensure Bluetooth and Wi-Fi are on
   b. Press Airplay
   c. Select your classroom location from the list and turn on Mirroring
3. On your MacBook laptop
   a. Ensure Bluetooth and Wi-Fi are on
   b. Click the AirPlay icon in the menu bar
   c. Select your classroom location from the list under Connect To AirPlay Display. Note that the icon is blue when your MacBook is connected.

Wireless Presentation Continued:

4. Enter the passcode displayed on the lectern touch panel or classroom display
5. When your device's image displays on the lectern touch panel, press Share Video to project the image. In some rooms, the lectern touch panel will not preview the Apple device and the image will be displayed automatically to the classroom display.

*Wireless Presentation is not supported by GW Lecture Capture and Web Conferencing.
3 Controls

Volume Control:

- Use the Volume controls to adjust source volume
- Use the Sound On/Mute controls to mute volume
- Use the Speech Volume controls to adjust microphone volume (available in select rooms)

Blank Screen:

The Blank Screen button will prevent the source from displaying to the screen

4 Shut Down

When you are finished using the system, please follow these steps to prolong the life of the equipment and reduce classroom downtime.

Shut Down:

1. Log off the computer by double clicking on the Log Off icon on the computer’s desktop
2. Select System On/Off from the Touch Panel
3. Select YES on the confirmation screen to shut down
